SKILLS

- Deep Learning
- Computer Vision
- Spatiotemporal Modeling
- Sign Language Recognition
- Machine Learning Pipelines
- Transformer Models
- Robotics & Human Augmentation
- Research & Development (R&D)
- Python
- C++
- Go
- PHP
- JavaScript
- Full Stack Web Development
- ROS / ROS 2
- Linux / Git
- Kubernetes

SUMMARY

PhD in Informatic and Computing | Researcher specializing in deep learning, spatiotemporal modeling, robotics, and deployable AI systems including sign language recognition, 3D digital twins, cloud computing, and intelligent automation. Research focuses on lightweight and deployable AI architectures for real-world applications, particularly in computer vision, robotics, and sign language recognition using Transformer-based and state-space models. Work includes 3D digital twin systems for human-machine interaction and avatar-based communication, as well as Mediapipe-based real-time perception pipelines. Experienced with PyTorch, machine learning pipelines, sequence modeling, and GPU-accelerated training environments Professional background includes scalable web platforms, cloud-native systems, AI-powered applications, DevOps, robotics systems, and automated trading infrastructure. Passionate about building practical AI systems that bridge academic research and industry deployment.

EXPERIENCE

PhD Fellow, Researcher, and Full Stack Developer — AI, Computer Vision & Robotics Lab, United Arab Emirates University

Jan 2020 — May 2026

Robot Explorer for deep wells and caves Cognitive robotic training systems for elderly care Arabic Sign Language Translation using spatiotemporal and machine translation models Fine-tuning video transformers for Arabic sign language recognition

Adjunct Instructor, United Arab Emirates University

Jan 2024 — Jun 2024

Taught Programming Lab I (CSBP121): Structured programming concepts Algorithms and problem solving Arrays and methods Selection and repetition structures programming fundamentals

Higher Education Teaching Instructor, United Arab Emirates University

Sep 2023 — Jan 2024

Completed: Center of Excellence in Teaching and Learning (CETL) PhD Teaching Academy (Cohort 8)

Research Assistant, Zayed University

Apr 2022 — Jan 2024

Worked on Astro Haptic Footwear research grant Assisted with AI and robotics research development

PhD Fellow, Researcher, and Full Stack Developer — Interactive Robots & Digital Media Lab, United Arab Emirates University, Al Ain, UAE

Apr 2022 — Dec 2023

Conducted AI and robotics research for human augmentation and Mars exploration Worked on Astro Haptic Footwear research grant Developed AI-driven applications and research platforms

Research Paper Reviewer, United Arab Emirates University

Sep 2023 — Nov 2023

Reviewer for: International Conference on Innovations in Information Technology (IIT'23)

IT Supervisor & Web Developer, Mansion Computer Gaming Center

Jan 2018 — Jan 2019

Supervised IT operations across two branches Developed company platform and POS system Managed events, media production, and accounting systems

Web Developer / Project Coordinator, AsfarTrip

Dec 2014 — Mar 2015

Developed web applications and software systems Coordinated technical development projects

Laboratory for Knowledge Discovery in Databases, Kansas State University

Dec 2010 — May 2014

Developed web applications and integrated APIs Performed data filtering and file conversion using Python Conducted search engine optimization and crawler research Published GIS-related research work

Teaching Assistant / Lab Assistant, Kansas State University

Aug 2013 — Dec 2013

Assisted in introductory computer science courses Supported students with labs and assignments Graded projects and examinations

IT Help Desk & Business Intelligence Analyst, Zain KSA

Jul 2012 — Nov 2012

Generated reports using Oracle, Teradata, and SAP data warehouses Managed communication and ticket systems using BMC Remedy Received TDWI training in Business Intelligence and Data Warehousing

EDUCATION

PhD in Informatics and Computing, United Arab Emirates University

Jan 2021 — May 2026

Master of Science in Software Engineering, United Arab Emirates University

Jan 2019 — Jan 2020

GPA: 3.39 / 4.00

Postgraduate Courses in Cloud Computing, Dublin City University

Jan 2015 — Jan 2017

Bachelor of Science in Computer Information Systems, Kansas State University

Jan 2007 — Jan 2011

Minor: Business Administration

ACHIEVEMENTS

- Brain Computer Interface Designers' Hackathon, IEEE SMS BR41N Competition (1st place)
- ACM Programming Competition (2nd Place)
- Arabic Sign Language Education and Communication AI System Demo — Abu Dhabi 6G Summit
- Robot Programmer & Operator in UAEU Pavilion — EXPO Dubai
- Astrohaptic Project & Space Suit Demonstrations — NAJAH Education Expo
